NEWELS and BOX NEWELS

Newels are individually cartoned.

Adjustable Newels are bored (1-1/2" Dia. X 10" deep) and shipped with a loose 19" dowel, allowing up to 4" of job-site trimming.

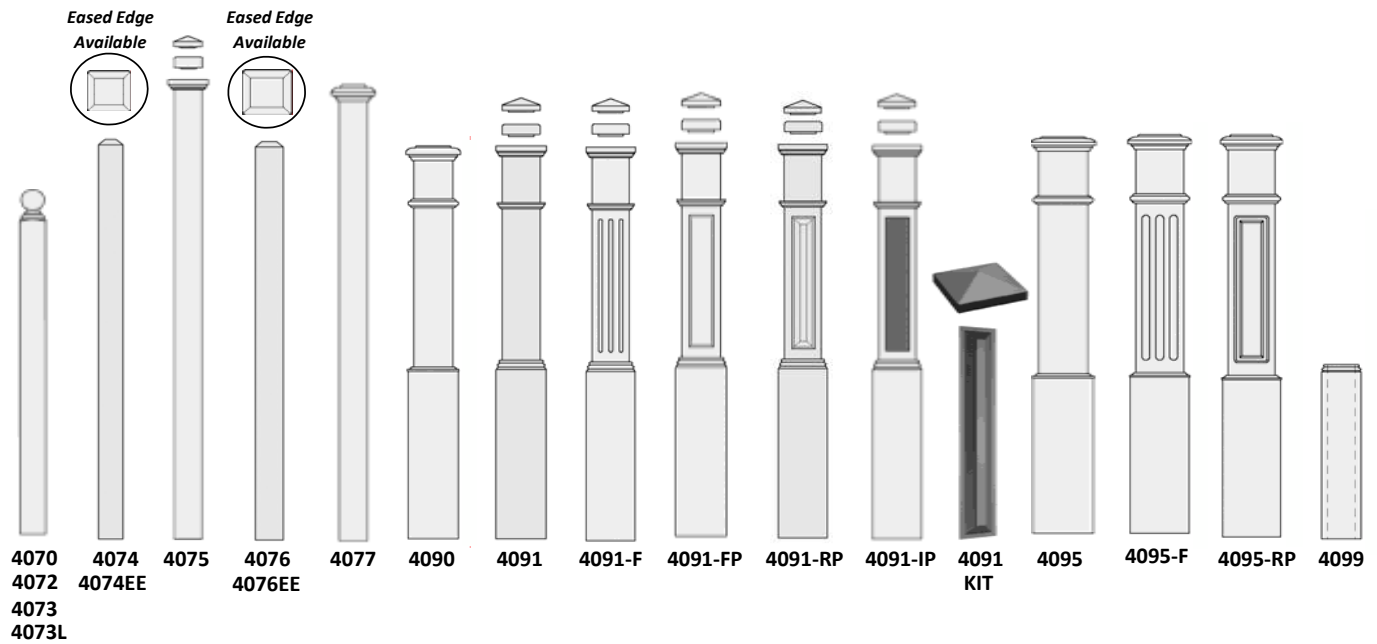

Box Newels (6-1/4" and 7-1/2" sizes) are shipped with EZ Mount Installation System included (mounting block, 4 washers and screws).

BALUSTERS

Primed Balusters are a smooth and stable hardwood painted with a gloss white (can be painted with standard preparation)

C-5015 Balusters PRIMED are available in two finishes (same List Price):

***PRIMED** - A low sheen finish that can be painted without preparation

***PRIMED WHITE** - A high sheen finish that can be painted with standard preparation

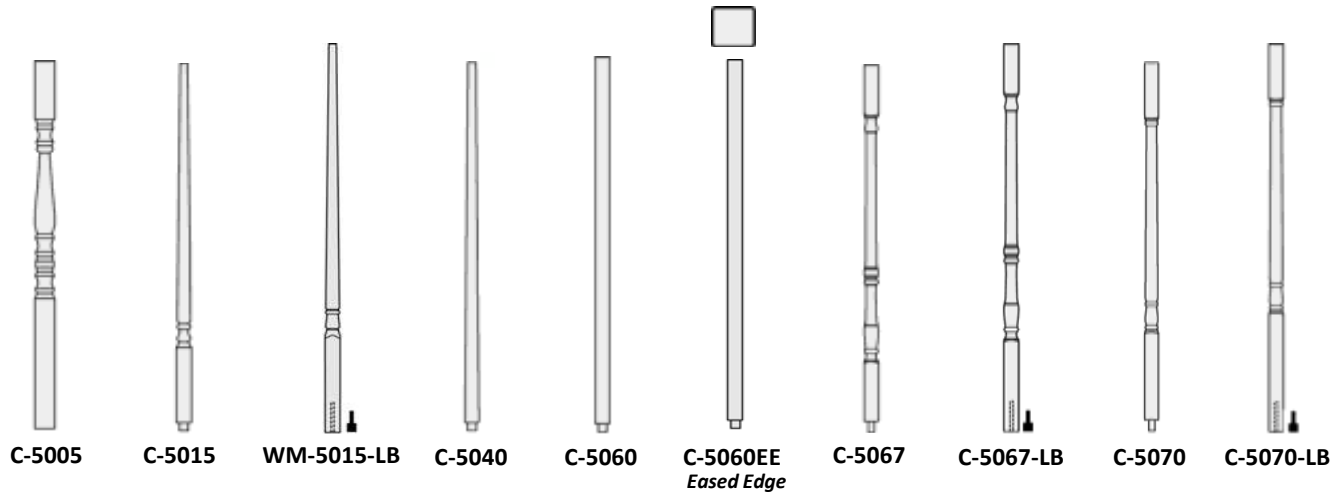

Long Block Balusters are bored and shipped with a Removable Pin.

Balusters packaging...1-1/8" and 1-1/4" = 50 pieces per carton; 1-9/16", 1-5/8", and 1-3/4" = 25 pieces per carton.

All bottom baluster pins are 3/4" Diameter.

Top diameters on Pin Top Balusters... 1-1/8", 1-1/4" & 1-5/8"....5/8" Dia. 1-9/16" & 1-3/4"....3/4" Dia.

WM-5015-LB Balusters are only stocked in Plano Distribution Center.

RAIL

Rail is available in the following methods of construction.

Fingerjoint (FJ) - Allows multiple joints per ply in all lengths.

Solid Cap (SC) - Top ply is solid thru 12' lengths. 14' & 16' have one fingerjoint in top ply (12', 14', and 16' in Cherry).

Solid Cap lower plys contain multiple fingerjoints

Engineered (ENG) - An engineered center core surrounded top, sides and bottom by plys with the following specifications

Top Ply is solid through 12' lengths. 14' and 16' have one straight line joint in the top ply

Side Plys contain 2-3 straight line joints

Bottom Ply contains multiple joints

Special rail constructions (i.e. Solid Ply) are available in WM Coffman's Custom & Specials Program. Contact your WM Coffman CSR

Rail is available in 2' increments. Longer lengths are available in WM Coffman's Customs and Specials Program.

Shipped in bundles, corrugated wrapped and strapped.

Random length Rail and Shoe Rail orders are filled from a factory mix of...30-40% 16'; 20-30% 14'; 30-40% 12' and 10'; 0-10% 8'

Fillet is included in plowed rails and shoe rails.

Fillet, when ordered separately, is provided in random lengths only

Solid lineal items 15' 6" and longer will be considered 16' (Bending Rail included)

Bending Rail specifications.

Bending Rail is shipped with Bending Mould included both sides

Bending Rail may contain 1 joint in both the outside and center plys.

WM-6210 SC rail is only stocked in Plano Distribution Center

C-6719 Rail is only stocked in Marion Distribution Center in BEECH and only in Austell Distribution Center in Poplar

C-6719 P1 Rail is only stocked in Marion Distribution Center

FITTINGS

All fittings that do not require trimming will be pre-drilled for rail bolts.

Fittings are matched to rail by the second digit of the catalog number. *Example: C-7 2 30 fitting matches C-6 2 10 Rail.*

Fittings are individually carton-packed and include instructions, templates, rail bolts and 1" flush mount plugs

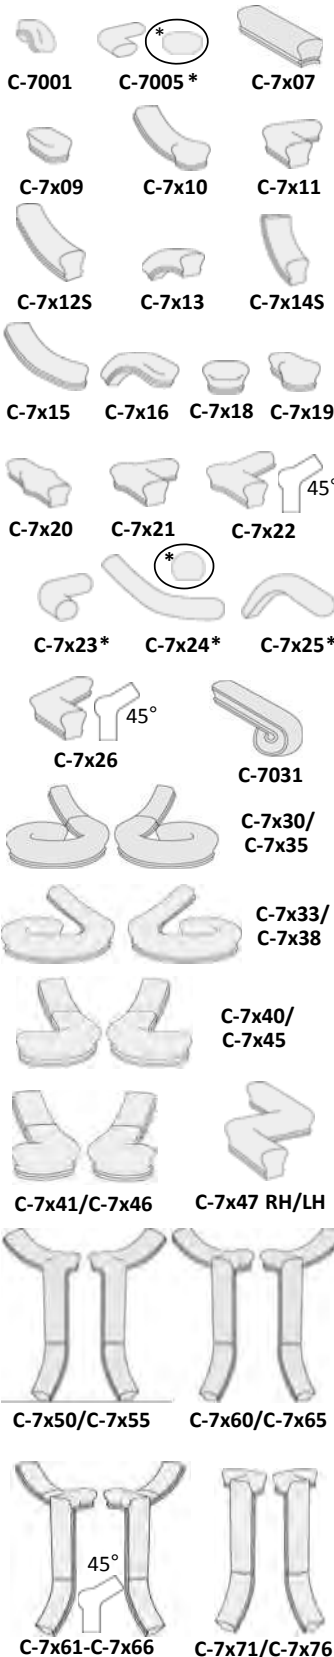

Two-rise goosenecks have detached lower easings.

Marion profile Fittings (C-77xx) are only stocked in the Marion Dist. Center in Beech and the Austell DC in Poplar

**TRADITIONAL
C-6010**

STARTING STEPS

Starting Steps include tread, riser, cove and shoe.

Single-end steps may be job-cut for shorter applications.

Double End Starting Steps with custom specified throat openings are available in WM Coffman's

Custom and Specials Program. Call your CSR for more information.

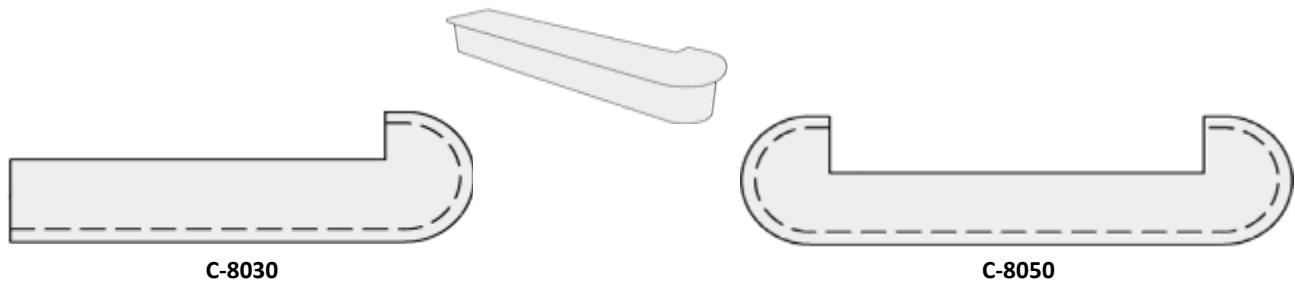

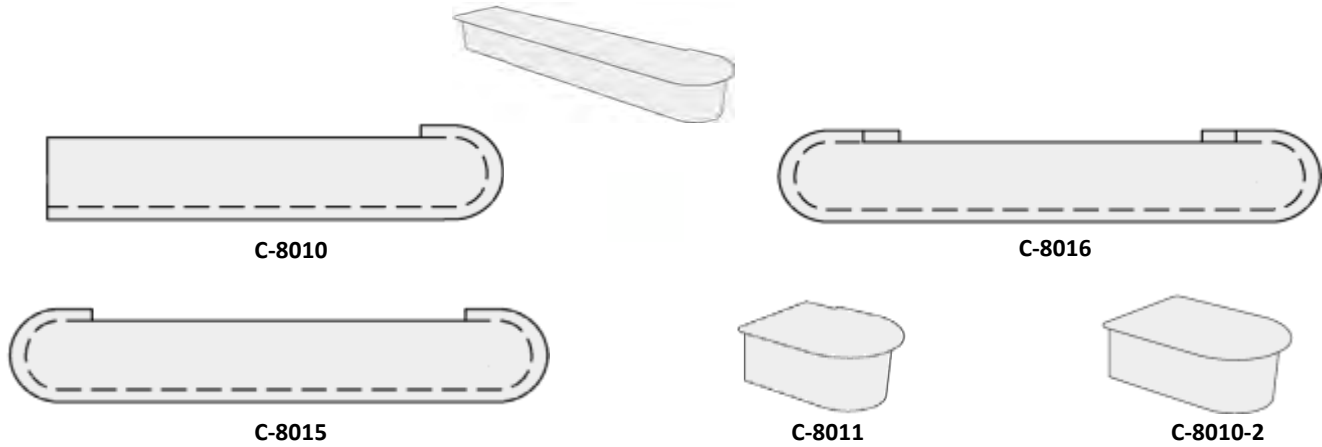

NOTE: Moulding Sets (i.e. C-8010 COVE) will fit steps up to 60".

C-8015 Moulding Sets will fit C-8016 Steps.

C-8010-2 is a Reversible Starting End Cap that has no notch and ships without mouldings.

C-8011 Reversible Starting End Caps are shipped with complete cove and shoe moulding kits.

C-8010-2 Starting End Cap is only stocked in Plano Distribution Center.

TREADS

Treads are solid, edge-glued construction.

Plain treads are square three sides and nosed one edge with a sanded face.

Tread thickness is 1-1/32" with a tolerance of (+ 0) to (-1/32").

Double Mitered Return Treads (Double MR) measurements are out-to-out. For Throat Opening Subtract 2-1/2".

Double Mitered Return Treads with custom specified throat openings are available in WM Coffman's

Custom and Specials Program. Call your CSR for more information.

Clear Oak Treads are stocked in Marion Distribution Center Only.
